

# Acetaminophen Alert

## ACETAMINOPHEN SAFE USE

campus resource guide

NCPIE • [talkaboutrx.org](http://talkaboutrx.org)

Did you know that acetaminophen overdose is one of the most common poisonings worldwide? Acetaminophen, a pain-relieving medicine, is extremely safe if taken as directed. It may be deadly if taken in large doses.

This is for information only and not for use in the treatment or management of an actual poison exposure. In case of emergency/overdose, immediately call 911 or the National Poison Control Center at 1-800-222-1222.
